§ 49.4261-3

(c) *In general.* The purpose of the transportation, whether business or pleasure, is immaterial. It is not necessary that the transportation be between two definite points. If not otherwise exempt, a payment for continuous transportation beginning and ending at the same point is subject to the tax. For the rate of tax with respect to amounts paid for seating and sleeping accommodations in connection with taxable transportation, see § 49.4261-9.

[T.D. 6618, 27 FR 11222, Nov. 14, 1962, as amended by T.D. 6753, 29 FR 12718, Sept. 9, 1964]

§ 49.4261-2 Application of tax.

(a) *Tax on total amount paid.* The tax is measured by the total amount paid, whether paid at one time or collected at intervals during the course of a continuous transportation, as in the case of a carrier operating under the zone system. For the application of the tax with respect to amount paid for seating or sleeping accommodations in connection with taxable transportation, see § 49.4261-9.

(b) *Tax on transportation of each person.* The tax is determined by the amount paid for transportation with respect to each person. Thus, where a single payment is made for the transportation of two or more persons, the taxability of the payment and the amount of the tax, if any, payable with respect thereto, must be determined on the basis of the portion of the total payment properly allocable to each person transported.

(c) *Charges for nontransportation services.* Where a payment covers charges for nontransportation services as well as for transportation of a person, such as charges for meals, hotel accommodations, etc., the charges for the nontransportation services may be excluded in computing the tax payable with respect to such payment, provided such charges are separable and are shown in the exact amounts thereof in the records pertaining to the transportation charge. If the charges for nontransportation services are not separable from the charge for transportation of the person, the tax

must be computed upon the full amount of the payment.

§ 49.4261-3 Payments made within the United States.

(a) *Transportation beginning and ending in the United States or the 225-mile zone.* The tax imposed by section 4261(a) applies to payments made within the United States for transportation which begins in the United States or in the 225-mile zone and ends in the United States or in the 225-mile zone. For example, an amount paid within the United States for transportation between New York and Montreal, Canada; between Vancouver, Canada, and Windsor, Canada; or between Nogales, Mexico, and Hermosillo, Mexico, would be fully taxable. See section 4262(c) (2) and paragraph (b) of § 49.4262(c)-1 for the definition of the term "225-mile zone".

(b) *Other transportation*—(1) *Transportation beginning before November 16, 1962.* In the case of transportation beginning before November 15, 1962, (other than that described in paragraph (a) of this section), for which payment is made in the United States, the tax applies with respect to the amount paid for that portion of such transportation which is directly or indirectly from one port or station in the United States to another port or station in the United States. Transportation that (i) begins in the United States or in the 225-mile zone and ends outside such area, (ii) begins outside the United States or the 225-mile zone and ends inside such area, or (iii) begins outside the United States and ends outside such area is taxable only with respect to such portion of the transportation which is directly or indirectly from one port or station in the United States to another such port or station. Thus, on a trip from Chicago to London, England, with a stop-over at New York, for which payment is made in the United States, the tax would apply to the part of the payment which is applicable to the transportation from Chicago to New York.
